MD/CEO, South-South Development Commission,

Head of Purchasing for Engineering, Construction, and Projects,

Founder/President, Ogwus Youth Empowerment & Community
Development Organization (OYECDO),

Rivers State, Nigeria.

Dear Sir,

**INVITATION TO BE A SPEAKER AND CONFERMENT OF AWARD AT THE
100 MOST NOTABLE AFRICANS LEADERSHIP AND BUSINESS SUMMIT
2025, MARRIOTT HOTEL KIGALI, RWANDA.**

On behalf of the 100 Most Notable Africans Leadership and Business Summit 2025, it is our great honor to invite you to be a Speaker and to receive the Conferment as one of the "100 Most Notable Peace Icons in Africa" at the Summit, scheduled to take place from 4th–6th July 2025, at the Marriott Hotel, Kigali, Rwanda.

Your recent appointment as MD/CEO of the South-South Development Commission, established to champion equitable regional growth across the oil rich South-South states, underscores your role as a transformational leader in governance and sustainable development. Under your stewardship, the Commission is poised to implement tailored infrastructure, economic and social-welfare interventions that will redress decades-long disparities in the Niger Delta.

Simultaneously, through "OYECDO", you have installed 170 solar lights in Edeoha, Opatabo, and Ihua-Agbuda; distributed learning materials to hundreds of school-children; provided scholarships and vocational training to over 500 youths; and delivered peace- and security-awareness programs that have helped curb oil theft and cultism in Rivers State. These initiatives exemplify a stakeholder-centric model that aligns corporate, civic, and traditional authorities in pursuit of social stability and economic opportunity.

Your dual expertise having led offshore operations on the Akpo FPSO and negotiated national gas-commercialization frameworks at TotalEnergies combined with your ethical leadership credentials (Fellow of CMI UK, Energy Institute London, American Academy of Project Management, Nigerian Institution of Safety Engineers) uniquely positions you to articulate actionable pathways for Africa's energy-sector transformation.

The proposed topic to speak on is "Maximizing Energy Transition in Africa's Oil & Gas Regions: A Leadership Framework for Governance, Investment, and Sustainable Development"

This address will draw on your technical and managerial mastery to outline how gas-commercialization strategies, green-assembly initiatives, and community driven projects can unlock investment, engender peace, and drive sustainable growth across Africa's hydrocarbon basins.

Green Assembly Initiatives Delegation

We are pleased to acknowledge that the "Green Assembly Initiatives" has recommended your participation and will be sending a delegation of three senior associates to join you at the Summit.
